

AVISA Awarded Approved Learning Provider Status for UK Ministry of Defence ELC Scheme

- AVISA UK is approved as a trainer for the MoD ELC Scheme
- AVISA can now offer CAAi Part M and CAAi Part 145 Courses to ELC funded students

London, 11th March 2010

AVISA Aviation Safety Systems (“AVISA”) www.avisaltd.com, the global airworthiness and aviation safety consultancy announces today that it is now a **Ministry of Defence** (“MoD”) Approved Learning Provider under the **Enhanced Learning Credits** (“ELC”) www.enhancedlearningcredits.com scheme.

As an Approved Learning Provider, AVISA is now authorised to supply two **CAA International** (“CAAi”) training courses to ELC funded learners. In order to achieve this status, AVISA had to undergo a rigorous application process of several months, assessing their operations and training facilities and finding them to be of a sufficient standard to satisfy the high expectations of the MoD.

AVISA is a global aerospace airworthiness and safety consultancy with offices in the UK, Eastern Europe, Scandinavia, Asia and the Middle East. AVISA has a reputation for excellence, working to ensure high safety standards and business improvements for its international clients in both the civil and military aviation sectors. With a proven successful track record, AVISA uses the very best industry and regulatory practitioners in order to deliver market leading training services.

Justin Goatcher, AVISA Group Managing Director commented:

“This is a landmark achievement for AVISA and builds on our already extensive training reputation. We have been associated with the MOD for a number of years now and this additional capability means that we can offer yet more services to this important client for AVISA.”

For a full list of AVISA training courses or to book your place on a course, please visit www.avisaltd.com/training.

AVISA Stands For Aviation Safety

Notes to Editors:

AVISA Aviation Safety Systems Ltd

AVISA is a leading global aerospace airworthiness and safety consultancy with offices in the UK, Eastern Europe, Asia and the Middle East.

AVISA works to ensure high safety standards and business improvement for its international clients in both the civil and military aviation sectors.

AVISA has assisted National Aviation Authorities and Regulators around the world as well as working with the UK CAA (Civil Aviation Authority), EASA (European Aviation Safety Agency), JAA (European Joint Aviation Authorities) and the EU Air Safety Committee. On an International level AVISA supports non EU based Regulatory bodies such as Bermuda Department for Civil Aviation, Albanian DCA and Sudan CAA.

AVISA is able to support fixed and rotary wing clients, from the individual operator through the corporate sector to mainstream commercial airlines. Because of their unique blend of CAMO services, training and consultancy, AVISA deliver the most appropriate support to suit the client's needs.

CAA International

CAA International (CAAi) is a 100% owned commercial subsidiary of the UK CAA. CAAi provides technical assistance and training covering all aspects of the application and implementation of aviation regulation. These activities are resourced from the UK CAA and delivered to other regulators, governments, operators and industry in the UK and overseas. CAAi expertise includes: airworthiness, flight operations, air traffic, aerodromes, licensing, airspace, risk and safety management, organisation process and management.
