Detailed Course Contents:

Aims

The Aim of the course is to provide Large aircraft leasing companies and their technical representatives with a detailed knowledge of Part M and how it applies to their area of the industry.

Objectives

The objectives of the course are

1. To explore Part M Subpart G & I in detail. Particular emphasis will be placed on the responsibilities of the operator and/or owner of the aircraft that a leasing company would need to know.

Benefits

The benefits of attending the course are

1. To give delegates details such as the responsibilities of a Subpart G organization, the content of the Continued Airworthiness Management Exposition, typical staff arrangements and qualifications, quality system, and Airworthiness Review Certificate. Also nominated staff and the practical application of Subpart G will be discussed.

Who Should Attend

This course is aimed at Accountable Managers, Maintenance Post Holders, Quality Managers and other members of staff who require a detailed knowledge of Part M and how it applies to their area of the industry.

Key Topics

The key topics of the course are

- ✓ Introduction to high-level applicable regulations, including the role of EASA and Continued Airworthiness in a regulatory environment
- ✓ Airworthiness and Continued Airworthiness concepts
- ✓ EASA Part M Overview, its Subparts and Guidance Material
- ✓ Overview of Subparts B,C,G & I
- ✓ Overview of Part M implementation and how to avoid potential problems
- ✓ Approved Maintenance programmes and their differences
- ✓ Bridging check definition and priorities
- ✓ Modification and Repair approval, EASA acceptance and global considerations
- ✓ Airworthiness records and their integrity
- ✓ Parts acceptance, standards and EASA definitions
- ✓ Assessing and Monitoring of lessee systems and processes
- ✓ Lease hand back considerations in an EASA environment
- ✓ Cost benefit analysis of escalated AMP and manufacturers MPD
